

Marketplace Hackathon

Day: 5

From : Minal Saleem

Date 20 January

1. Functional Deliverables:

Logs from Postman

The screenshot shows the Postman application interface. On the left is a sidebar with a file explorer showing a project structure with files like .next, node_modules, public, scripts, migrate.mjs, src, .env, .eslintrc.json, .gitignore, components.json, next-env.d.ts, next.config.mjs, package-lock.json, package.json, postcss.config.mjs, README.md, sanity.d.ts, sanity.config.ts, tailwind.config.ts, and tsconfig.json. The main panel is titled 'get check / New request' and shows a GET request to 'https://giaic-hackathon-template-08.vercel.app/api/products'. The 'Send' button is visible. Below the request details, the 'Body' tab is selected, showing a JSON response. The response is a single product object with the following fields: _id, title, priceWithoutDiscount, category, tags, price, badge, imageUrl, and description. The status bar at the bottom right indicates 'Status: 200 OK', 'Time: 233 ms', and 'Size: 7.9 KB'.

```
1 {
2   "_id": "2P4ew3n0aFKlAn3Aum9jzF",
3   "title": "SleekSpin",
4   "priceWithoutDiscount": null,
5   "category": {
6     "_id": "b5710116-09af-4d0e-aa9a-dcd02fe919a9",
7     "title": "Desk Chair"
8   },
9   "tags": [
10    "gallery"
11  ],
12  "price": 20,
13  "badge": null,
14  "imageUrl": "https://cdn.sanity.io/images/5x47y4y0/production/81a5b7de166f930870a82f8f3ee61b38a70de9f4-312x312.png",
